Educational Excellence *for* Life and Leadership

FIDELIS

MESSAGE FROM THE HEAD

Thank you for the interest you have shown in Harrow International School Hong Kong.

Choosing the right school in which to develop your career is one of the most important decisions you will have to make, especially when this may involve moving to a new country.

Harrow School in London was established in 1572 and over the past 450 years has grown into one of the world's most renowned schools, educating generations of inspirational world leaders. Harrow Hong Kong opened its doors in 2012 and its objective was to embed elements of philosophy and practice from Harrow School in London to bring together the best of western and eastern traditions. We are a modern, progressive and dynamic school offering an unparalleled British education in the wonderfully unique setting of Hong Kong.

Currently, there are around 230 members of the Common Room, which includes teachers, teaching assistants, educational support staff, matrons and gap tutors. We are proud of our diverse staff body whose experience has been gained both in schools in the UK and internationally. We work together with the shared aim to provide an outstanding education for our pupils.

Whilst our academic results are some of the best across the world, we believe that success is also measured by one's influence on the world and being willing to learn, lead, create, compete and care are a fundamental aspect of a Harrovian education. We place great emphasis on the professional development of our staff and have a bespoke CPD programme whilst offering opportunities for staff to participate in group wide activities as part of the AISL Academy and Harrow Net meetings where colleagues from schools such as Harrow London, Bangkok, Beijing, Shanghai and Shenzhen meet together to share ideas, experiences and expertise.

Staff and their families joining the School follow a comprehensive induction programme in order for them to familiarise themselves with the School and Hong Kong. There are a range of social events organised by the Common Room Committee from trips on a Junk to Friday Feasts!

I do hope that you will consider joining the Harrow Hong Kong team; we look forward to receiving an application from you.

Ann Haydon

Head

EQUAL EMPLOYMENT OPPORTUNITIES

Harrow International School Hong Kong is an Equal Opportunity Employer. We are committed to providing an environment of mutual respect, where equal employment opportunities are available to all irrespective of race, religion, political view, nationality, age, gender, pregnancy, breastfeeding, disability, marital status, familial status, sexual orientation, gender identity, gender expression, genetic information and any other characteristic protected by the Equal Opportunities Commission and all other applicable ordinance.

The School embraces diversity and inclusion, believing it to be key to our success as an International School, and we seek to recruit, train, promote and retain high calibre staff from a diverse and inclusive candidate pool.

The School will not tolerate discrimination, harassment, vilification or victimization of any kind and any behaviour of this nature should be reported to the Director of Human Resources immediately. Any reports of this behaviour will be treated very seriously and will be considered under the School's Disciplinary Policy.

THE SCHOOL

Harrow Hong Kong occupies a spectacular site adjacent to the Gold Coast in the New Territories.

Harrow International School Hong Kong is the first international boarding and day school in Hong Kong. It is the third school in the Harrow family of schools in the Asia region and provides a British education from Early Years to Year 13 in custom-built facilities in a stunning location in Hong Kong. The School combines elements of educational philosophy, practice and traditions from Harrow School in London with the international mindedness of a diverse pupil body in Hong Kong. Having opened in September 2012, the School roll is currently around 1500 and the school achieves the best results in Hong Kong at A-level and GCSE with pupils going on to study at some of the top universities across the globe. We were delighted to have featured as one of the top 100 Schools in the World, top 10 Schools in Asia and one of the leading schools in Hong Kong according to the 2020 and 2021 Spear's Index. Harrow Hong Kong is, however, about much more than academic results and our pupils excel in music, drama, sport and art as well as service and charity work and our pupils go on to some of the top universities across the world.

The Lower School includes the Early Years Centre (K1 and K2) and the Pre-Prep School (Y1-Y5). The Upper School consists of the Prep School (Y6-Y8), the Senior School (Y9-Y11) and the Sixth Form (Y12-Y13).

Weekly Boarding is available to Upper School pupils. There are three Prep School Houses for boys and three for girls, four Senior School Houses for boys, one of which is a 'Day' House and four Senior Houses for girls, two of which are 'Day' Houses.

VISION, MISSION AND VALUES

VISION

Educational Excellence *for* Life and Leadership

The School's vision is for pupils at Harrow Hong Kong to not only achieve outstanding academic results, but also develop the motivation, skills and determination to make a positive difference to the world in which they live.

MISSION

The School's mission is to promote Educational Excellence for Life and Leadership through an outstanding education that blends elements of philosophy, practice and tradition from Harrow School with an awareness of the cultural context of Hong Kong and the needs of its international community.

The key characteristics are:

- High levels of academic achievement with significant value-added academic performance, leading to top public examination results and entry to prestigious universities across the world.
- A diverse, high quality Harrow Horizons programme that inspires a desire for excellence and a breadth of activities. Distinctively, it includes the Super-Curriculum, which is integrated into the School timetable for all pupils, supported by opportunities for further enrichment outside the timetable.
- High quality pastoral care, with a strong boarding ethos and House system at its heart, that promotes an inclusive School community in which its members feel happy, secure and valued, and that places emphasis on the personal formation of the character of each pupil. Supporting this is a bespoke personal, social and health education programme called Facing Challenges that encourages the development of resilience and a positive, solution-focused approach to any challenge.

Leadership, of course, is a core Harrovian quality and some of the great Old Harrovians, such as Winston Churchill, Nehru and King Hussein of Jordan are renowned for providing profound leadership at significant points in modern history. We aim to equip and challenge Harrow Hong Kong pupils to use their knowledge, skills and talents to make life better for other people in their community and the wider world through developing six identified key Leadership Attributes:

- Contributing positively to the community
- Applying knowledge with compassion
- Solving problems collaboratively
- Solving problems creatively
- Making fair and just choices
- Facing challenges with determination

With input from teachers, pupils and parents, a social vision statement was created to outline the expectations of how members of the School community are expected to treat each other:

A caring, respectful community in which everybody thrives

This social vision statement goes to the heart of the leadership attributes and the modelling of them in the Harrow Hong Kong community. It also provides a framework for teachers, pupils and parents to encompass in all their interactions with each other.

Harrow Hong Kong aims to embed opportunities for each pupil to acquire the Leadership attributes in all aspects of School life, including the types of learning experiences that teachers prepare for pupils in the classroom, the academic curriculum itself, the Harrow Horizons programme, including the Leadership in Action programme, and opportunities to take on leadership roles both within and outside the School community.

VALUES

In any organisation – be it a school, a company, or even a family – strong and clearly expressed values create identity, focus, unity and drive, answering the questions ‘what do we belong to?’, ‘what’s important to us?’, ‘what holds us together?’ and ‘why do our collective efforts matter?’ At Harrow, our Values help us to make decisions on a daily basis that mean we behave and perform better, inspiring us to try harder as individuals, so that collectively we thrive.

- **Courage** encourages us to innovate and take risks, inspiring change for the better. It means challenging adversity and complacency, making the most of opportunities, putting fear of failure to one side and staying the course, even when it is difficult.
- **Honour** is about doing the right thing, having the highest standards and leading by example. It involves taking responsibility and, ultimately, is what makes us worthy of the trust of others.
- **Humility** asks us to recognise that one’s self is a work in progress and that struggling with one’s weaknesses is essential to growth. Humility increases our awareness that talent and achievement alone, however impressive, are not sufficient to succeed as a human being – and that none of us is at the centre of the universe.
- **Fellowship** means building binding, constructive relationships that help us all to make a positive contribution. This is resonant with our belief that the strongest relationships of all are based on faith, hope and love.

Our four Values link closely to our Christian foundation and the principles of ‘Godliness and good learning’ established by our founder, John Lyon. In our context, their meanings are replete with much more than their dictionary definitions, just as the word ‘Harrow’ means more than just a school. Outwardly, they give a sense of the distinctive quality of Harrow School, and express what we think is important. A school that values courage, honour, humility and fellowship is a school at its best: one deserving of the name ‘Harrow’.

THE CURRICULUM

At Harrow Hong Kong, we offer a British Curriculum with our pupils taking GCSE examinations in Year 11 and A-level examinations in Year 13. The philosophy of our curriculum is to develop essential skills as well as to acquire subject knowledge. We want our pupils to finish their education at Harrow with excellent results and, crucially, excellent personal attributes.

During the Prep School (Years 6-8) and Year 9, pupils are exposed to a wide variety of subjects so that they develop a breadth of knowledge and acquire different skills. Our core curriculum consists of:

- Science
- Maths
- English
- Humanities (PRS, History, Geography)
- The Arts (Art, Drama, Music)
- Languages (Chinese, French, Spanish)
- Physical Education
- Computer Science (from August 2022)

From Year 10, our pupils begin their GCSE studies taking four options subjects plus the core curriculum of English Literature, English Language, Maths and Triple Science. These courses culminate with public examinations at the end of Year 11.

From Year 12, pupils begin their A-level studies with the option of studying any subject they have already done at GCSE level as well as the additional options of Politics, Psychology and Economics. All our pupils also complete the Extended Project Qualification.

In addition, we have excellent Language and Learning and Individual Needs departments who support our learners across the school and who are similarly dedicated to ensuring that all our pupils achieve their very best.

Lessons are creative and inspiring and our teachers have the highest expectations of all pupils. We are proud of the excellence we have in our classrooms and we actively promote the sharing of good practice between departments and across the school.

HARROW HORIZONS

Harrow Hong Kong is committed to providing a broad range of opportunities for our pupils outside of the formal classroom. We firmly believe in an all-rounded education where academic pursuits are supported by Super Curriculum and Co-Curricular opportunities.

Our Harrow Horizons Programme immerses pupils in a vibrant menu of opportunities and challenges through sport, the creative and performing arts, academic extension, charity and service, STEAM, enterprise, and expeditions. The programme encourages pupils to step out of their comfort zone whilst undertaking new experiences and challenges to help them develop our Leadership Attributes which are at the heart of our DNA as a school.

Our Super Curriculum Activities (SCA) are embedded into our School timetable and pupils enjoy partaking in their SCAs two periods a week. Our Co-Curricular Activities (CCA) are the enrichment activities which take place either before or after School or during lunchtime, and are therefore outside of the School timetable. Our staff are passionate about leading their SCAs and CCAs, giving them a chance to:

- teach beyond the restrictions of the curriculum, offering their pupils academic stretch, challenge and extension in their specialism
- lead an SCA which they are passionate about which may be outside of their teaching specialism
- coach and lead one of our sports teams
- lead one of our Charity and Service activities working with the pupils to give back to society.

Staff are proactive at entering their SCA and CCA pupils into competitions, both locally and globally and organising trips and visits to help support this extended learning opportunity.

Our staff enjoy participating in our extensive expeditions programme throughout the year and play an important part in our Leadership in Action week which takes place annually, in which the whole school community is involved.

Charity and Service opportunities are an important part of what we offer here at Harrow Hong Kong; our staff actively work with their pupils throughout the year to fundraise and build relationships with our School Charities through the House system and various SCAs and CCAs ensuring our pupils understand the importance of giving back.

PASTORAL CARE

At all ages in the School, there is a strong emphasis on the quality of relationships and community life, and on the personal formation of character.

The building blocks of the School community are the Prep and Senior Houses in the Upper School. This sense of community is promoted in the Lower School classes and there is a House system in the Pre-Prep School to help prepare pupils for their move to the Prep School in Year 6.

In the Lower School, the focus of pastoral care is the Class Teacher. However, from Y6 when pupils enter the Upper School, pastoral care is centred on the Houses. All boarders and day pupils are members of a House.

Harrow Hong Kong's formal taught pastoral education programme is known as 'Facing Challenges' and most teachers are involved in its delivery throughout the School. The programme aims to develop resilient individuals who embody the School's leadership attributes and adopt a solution-focused approach to any potential challenge: health, social, economic or academic.

BOARDING AND HOUSES

Harrow Hong Kong was the first, and is the largest British international school in Hong Kong which provides the opportunity of a boarding education. Boarding, the heart of life at Harrow School in London, is also integral to life at Harrow Hong Kong.

The House Master or House Mistress has the primary role in the provision of wellbeing and pastoral care of our pupils. Resident in each House is a House Master or House Mistress, and an Assistant House Master or House Mistress, and all Upper School teachers are Tutors in one of the Houses. The House Pastoral teams play a major role in supporting the boarders and day pupils and deliver our own bespoke PSHE programme, known as 'Facing Challenges'.

The quality of relationships and community life, and the personal formation of character are fundamental to life at Harrow Hong Kong. The Houses provide rich opportunities for interacting with pupils from a wide range of backgrounds and for developing more profound relationships with teachers and their peers.

The real strength of a House is the vertical integration of different year groups, which effectively creates a large family unit, allowing responsibilities for older pupils to care for and support younger pupils. The result is the creation of a close-knit, family atmosphere in which boarders feel that it is their home during term time, and in which all pupils feel happy, secure and valued. In the numerous competitions between the Houses, their community pride finds expression via a healthy competitive spirit.

There is a strong community of over 300 weekly boarders in the Upper School who board from Sunday to Friday evening. Boarders benefit from a thriving programme of activities and support along with the chance to experience living with others, developing independence, having fun and honing essential skills for life beyond school.

DIGITAL AND TECHNOLOGY

At Harrow Hong Kong we recognise the importance of technology in education, both as a component of teaching and learning and a component of the curriculum. All teachers are provided with a MacBook and iPad and every classroom is fitted with a 4K UHD Interactive Flat panel display (BenQ), providing wireless mirroring and multi-touch functionality, all backed up with school-wide WiFi 6 coverage. Class sets of iPads are available for the Early Years and Years 1 and 2 and, from Year 3, pupils bring in their own devices, with Years 3 to 5 having their own iPads and Years 6 to 13 having MacBooks. This infrastructure creates the foundation for technology to be seamlessly integrated both in and out of the classroom and the reflective and purposeful use of technology for teaching and learning is both a priority and a strength. Teachers are supported by comprehensive in-house training, staff 'Digital Champions' and pupil 'Digital Leaders.'

Understanding the important role of technology in the workplace, we place great value on developing the computational thinking skills that will enable our pupils to be creators and leaders rather than simply consumers of technology. In the Early Years, pupils are introduced to the basics of coding through Matatalab. As pupils enter Key Stage 1, they are timetabled for one hour of computing per week, which increases in the Prep School as part of a new computing curriculum course, in preparation for GCSE and A-Level Computer Science.

With technology's increasing integration in our lives and as a school that prioritises pupil wellbeing, we prepare our pupils for life beyond the classroom from an early age through both discrete and integrated teaching of Digital Literacy. In the Lower School, this is taught explicitly through our Computing lessons, as we build on pupils' knowledge throughout the years. This is typified in our eSafety Week, which is celebrated annually. We view this as an excellent opportunity to involve our older pupils in sharing their knowledge with our younger pupils, as they create assemblies and drama performances to support them with their learning. In the Upper School, digital literacy themes are integrated into the Facing Challenges (PSHE) programme, and are also integrated into the academic curricula where appropriate. In addition, with our support and training, the 1:1 device programmes from Key Stage 2 upwards empower pupils to be both confident and reflective users of technology, learning to communicate effectively and with an awareness of their dangers.

CONTINUING PROFESSIONAL DEVELOPMENT

At Harrow Hong Kong we recognise that the staff are the driving force behind our School's success and we are fully committed to developing all staff so they are at the cutting edge of their profession.

We look at the individual and how to best develop them for the next stage of their career with many of our staff attending courses around the world. The school can also support staff to have the opportunity to complete the different NPQs or a Masters degree. We work with Andy Buck, Leadership Coach and founder of Leadership Matters as well as offering courses through organisations such as the Boarding Schools Association and HMC.

Internally, we are a great believer in staff leading on initiatives or participating in working parties in order to further develop their skill sets. Recent examples of working parties include 'Using CEM to enhance Teaching and Learning' and our 'Digital Champions' who were focused on developing our use of digital strategies to enhance learning in the classroom.

We have five CPD days per year and four Staff Twilight sessions. We also have a variety of whole school forums such as:

- Teaching and Learning Squads
- Celebration of Educational Excellence
- Teaching and Learning Group Meetings
- Teaching and Learning Tips and Blog

In the Lower School there are weekly CPD sessions in the whole school staff meeting which aim to develop excellent practice in this area of the school.

Harrow Hong Kong is also part of Asia International Schools Limited (AISL) and we have access to the AISL Academy which is a professional development platform led by the group. Within this platform there are a variety of courses which stretch and develop staff and which give an opportunity for a deeper understanding of the family of schools.

All CPD relates to the School's overall strategic aims as well as the individual objectives set by teachers during the annual Professional Performance Review cycle.

BENEFITS OF BECOMING A TEACHER AT HARROW INTERNATIONAL SCHOOL HONG KONG

- The opportunity to teach, bright, interesting and hardworking pupils.
- The opportunity to be part of a supportive, forward thinking and motivated staff team.
- A comprehensive Staff Induction Programme and Professional Development Programme.
- The opportunity to work and develop within the family of Harrow Schools.
- Excellent working environment with dedicated staff working areas and extensive ICT facilities.
- The opportunity to get involved in Super-curriculum Activities and the Co-curricular Programme.
- Competitive salary and performance related payments.
- Accommodation or Housing Allowance
- Flight at the start and end of contract and additional flight benefits.
- Fee remission for staff whose children attend the School.
- First rate medical insurance.
- Staff Well Being Programme.
- Staff Social Programme.
- Complimentary school breakfast, lunch and supper.

WHAT OUR STAFF SAY

Janet Montefiore | Matron

As a Matron I am always so grateful for the amount of support our pupils receive from the Education Support Staff, the Health Care Centre Medics and the Catering team. Without these people our school couldn't function and we owe them so much for the care and attention they provide to us all.

My role is a very special one; I am always thrilled to see a young boy come into our Boarding Houses and develop into a fine young man ready for the next phase of his life. It's a privilege to be part of that process.

Jane Kwok | Accounting Officer

Harrow has been a fantastic place for me to grow. The atmosphere is always very friendly, and we all share a common goal to make a positive difference to the world. The people here are determined, professional and vibrant. I have developed my professional career path and I have made friends for life here.

It was here that I learned the values of integrity, high expectations and teamwork, and how they can motivate both staff and students to "go the extra mile." The team I work with are extremely supportive and amazingly positive, and I wake up every day and feel excited about coming to work! It has taken a great team and a culture change to create a school that we and the community are truly proud of.

As a worker, I feel valued and appreciated.

Oliver Paulin | House Master of Sun and Teacher of French

Working at Harrow Hong Kong has given me many opportunities to develop as a professional and to add to my skills. There is a strong focus on supporting pupils' wellbeing and the school has provided training to help Pastoral Leaders and others who have expressed an interest in this area. There is a great atmosphere of sharing good practice and learning from each other. Working with the pupils here is also a real pleasure; they are highly motivated and show interest and enthusiasm in lessons.

Leon Li | Admissions Officer

I've been a member of staff at Harrow Hong Kong for two and a half years and there are so many good things to say about the school. I just consider myself very lucky to be working in such a lovely community spirit with friendly staff and this makes a first-class environment for the children to be educated in. Over the period of the past two years, I have been motivated by the great spirit here and our motto "Educational Excellence for Life and Leadership" and have made some lifestyle changes. For instance, I challenged myself and completed a fitness transformation over three months, which formed the foundations of a physically and mentally healthier me.

Carl Doree | Teacher of Biology, Head of Charities and Community Service

Harrow stands out from other international schools in that the staff body is incredibly sociable. There is always so much going to be involved with. The Common Room Committee (CRC) will regularly organise events to bring everyone together. The CRC organises the Christmas and Summer staff parties but so much more during the school year. Highlights of the social calendar include a scavenger hunt around Hong Kong, Junk Boat outings, Friday night 'sundowners', movie night, book club to name a few. As a staff member you are welcome to organise your own event or competition with the aim of bringing colleagues together and have fun. I have found the staff body to be incredibly welcoming, friendly and good humoured and these events are a great opportunity to catch up with all members of the staff community. I have made some really good friends here at Harrow and this is a big reason why I enjoy working here so much.

I had visited Hong Kong before I moved here, which had given me an insight into how good expat living is in this city and how much there is on offer. Hong Kong lived up to my expectations and more. I knew that the restaurant scene and nightlife is electric but I was surprised to discover just how many opportunities there are for being active in the great outdoors. I have been hiking, sailing, paddle boarding and rock climbing. If there is a particular hobby that you have in mind, Hong Kong will probably offer it.

Laura Yandell | Deputy Head (Co-Curricular and Organisation) and Teacher of Drama

It is such a privilege to be part of such a wonderful school community. Our pupils and staff are the most incredible people to work alongside on a daily basis and the things we strive for and achieve are quite formidable. The opportunities we get working at Harrow and living in Hong Kong is, in my opinion, a once in a lifetime experience and I feel very lucky to be part of this fantastic organisation.

Naina Nightingale | House Mistress of Gellhorn and Teacher of English

It is a great privilege to be part of the staff community at Harrow. From application, to interview, to arrival at Harrow Hong Kong, the existing members of staff were incredibly helpful, answering queries rapidly and offering assistance at all stages as I prepared to relocate to Hong Kong. Harrow Hong Kong is welcoming and committed to supporting each individual, so that they can reach their full potential and realise their professional goals. It places pupils at the heart of all it does and offers excellent professional development in an exciting and diverse environment. Working at Harrow means being part of a community of outstanding people, staff and pupils alike.

Liz Campbell | Director of Libraries

Entering the teaching community at Harrow has been a wonderfully fulfilling experience for me. The standard of excellence means that the bar is set very high and it brings out the best professionally. It is also an incredibly supportive group of people. Although we have not had a lot of face-to-face lessons this year, I have been struck by how much Harrow pupils engage with their learning. I have found myself in conversation about books and getting excited about reading recommendations with pupils and I just love that. It's incredibly rewarding.

Abi Hiley | Assistant Head of Lower School (Digital Strategy and Continuing Professional Development), Year 1 Class Teacher and Lower School Computing Curriculum Coordinator

I joined Harrow 5 years ago from another international school and, when I arrived, the first thing that stood out to me was how friendly and welcoming staff were at supporting me with finding a home and feeling part of a community.

Since I have been here, I have had multiple opportunities to develop as a professional and as a leader, learning from the wealth of expertise that we have across our staff body. Travel opportunities have also enabled me to experience different cultures.

Harrow Hong Kong has widened my professional and social horizons and I look forward to what the future continues to hold here.
